Report has it that one of the high officials of the Richmond Baseball Club recently stated that he would be willing to give no small sum and the pick of any two of the pitchers now on the local team to Manager Moss, of the Portsmouth club, for Pitcher Shuman. While there is little likelihood of such a deal being made, it is a question whether or not the "Truckee" crack twirler would be worth such a price, as it would mean that Shuman would have to busy himself and land at least one more member for the teaming staff, and at this time of the year such a task would be no easy matter. Another official, who does not wish his name mentioned in the matter, denied the rumor by saying that the local management was perfectly satisfied with its present bunch of pitchers, and that he had heard of no such deal.

With three straight defeats staring them in the face, it is foolish for even the most optimistic and hopeful fan to deny the fact that the Colts have been badly out of the form which they exhibited at the opening of the season, and that something is wrong. This condition may be the result of a number of causes, but the two most likely are, first, that the men are not taking the proper care of themselves; second, that it is only a slump that will and does come to every team at certain stages during the season.

So far as the writer knows, and he has the assurance of those who have been with the team on every trip, and who have had a chance to know what-er or not the players have been running a little wild, there is no foundation for thinking that the men have been in the former case. The real answer seems to be that they have slumped, and that the defeat suffered here is only a discouragement. If such is the case, it is time that they should have the encouragement of the home team. Let the rooters give them some of the spare cheering they land out to the enemy, and omit the rowdy hissing that they give any misplay by the Colts, and see what effect it will have.

The fickle fan is only too ready to forget that ball players are human beings, and not machines, even though they do play for a salary. True, this is their way of living, and they should try to excel, but no man is infallible in his particular line of business, so give the team a real chance. Give them a few days of real support, and the change. Any one who has been closely associated with ball players will tell you of the nervousness caused by defeats, and despite the fact that they "play for the money," they take a loss much more to heart than does the fan. If they deserve criticism because of "dumb" work and a protracted spell of the listlessness exhibited in the opening game on Thursday, then "hand it to 'em," and "hand it to 'em hard."

## OFFICERS ARREST MANY OFFENDERS

Police Put Forth Every Effort to Protect Veterans from Sharpers and Pickpockets.

GOING THROUGH HIS POCKETS

Bicycle Officer Surprises Gang While Engaged in Their Work of Crime.

The First Police Station was crammed last night with alleged pickpockets, less artistic thieves and culprits of all sorts. Forty arrests were made during the day and the earlier part of the night.

Probably the worst case of pocket-picking was that in which A. J. Butler, Flavie Goode, J. E. Fifty and John Carter were found to be engaged. They were surprised by Bicycle Policeman Atkinson, who saw two of the men holding a victim in the rear of Puchell's saloon, on lower Main Street, one on each side, with one man pouring whiskey down the old soldier's throat, while the fourth was busily engaged in going through the pockets of the victim. Officer Atkinson held the men while some one went for another policeman. Officer Mitchell arrived on the scene, and the men were all safely landed in the station.

Another veteran acknowledged himself a stranger in the city, and was taken in to the station. He was a Gray Holdbrook ten cents to show him where to get a room. The negro took the old soldier to a dive, and there demanded his money. The veteran was not to be intimidated, however, and he refused. The negro thereupon knocked him in the face and proceeded to rifle his pockets. Some one in the house set up an alarm, and the negro ran. In twenty minutes, however, he was taken to the station-house.

Edward Clark and Michael J. Burruss were spotted by Officers Atkinson and Puchell, and taken to the station in a suspicious manner just below the Main Street Station, and they were both arrested as suspicious characters.

Many others were arrested in trying to board a street car. He was attended by the ambulance surgeon, who made him comfortable.

Many of the falling soldiers were registered yesterday in the Memorial, where twelve had been registered the day before. One of them is threatened with an attack of pneumonia, but hopes it may be warded off. Most of the other cases were cholera morbus and like affections.

“Household” For Sale.  
Messrs. J. Jordan Leake and John B. Mordecai, executors of the estate of the late Mrs. Rosina U. Mordecai, have advertised “Household” the Mordecai estate, for sale by public auction on Saturday, June 8th, at the residence of Messrs. J. Jordan Leake and John B. Mordecai, a nice dwelling-house and all necessary improvements.

The property is near Young's Pond, and is within easy access of trolley lines and the Richmond, Fredericksburg and Potomac Railroad.

One of the very best, being in close proximity to the handsome estate of the late Major Ginter, known as “Reynolds,” and the elegant residence of Edmund Strudwick, Esq., Mrs. Byrd Warwick, Messrs. H. T. Meloney and others.

There will be no trouble in identifying the property, as the owner, who hopes and believes it will be returned.

Proprietor Frank Anthony and Mr. Reinhold are trying to figure out what it all means. If it was an innocent mistake, the property will come back, but in any event, it was a curious affair. In the light of the fact that Mr. “Reynolds” has been stopping at the Commercial.
